The Bilateral Netting of Qualified Financial Contracts Act, 2020¹

[Act 30 of 2020]

[28th September, 2020]

An Act to ensure financial stability and promote competitiveness in Indian financial markets by providing enforceability of bilateral netting of qualified financial contracts and for matters connected therewith or incidental thereto

Be it enacted by Parliament in the Seventy-first Year of the Republic of India as follows:—

Statement of Objects and Reasons.—Netting enables two counterparties in a bilateral financial contract to offset claims against each other to determine a single net payment obligation due from one counterparty to other in the event of default. In the absence of a legal framework for bilateral netting, banks are forced to measure credit exposure to a counterparty for over the counter (OTC) derivative contracts based on gross basis and not net basis. This situation significantly increases credit risk exposure and systemic risk in financial market in the event of default of a counterparty, besides trapping significant amount of capital unproductively by banks. An unambiguous legal framework for enforceability of close-out netting would reduce credit exposure of banks and other financial institutions from gross to net exposure, resulting in substantial capital saving on such exposure and reducing the overall systemic risks, thus contributing to the financial stability.

2. Further, due to the emerging global consensus of imposition of margins for non-centrally cleared OTC derivatives, it has become necessary for India to implement exchange of margin system for OTC derivatives to improve stability and resilience of our financial system. Such margin on gross basis would make the OTC derivative market very costly and may seriously disrupt the OTC derivatives market, as such derivatives account for a significant part of the total derivatives market. The law on bilateral netting would be a significant enabler for efficient margining. The capital saving would enable banks to provide price efficiency in offering hedging instruments to businesses in India, and catalyse the corporate bond market through developing the credit default swap market. It is expected that a law on bilateral netting of financial transactions would further develop the financial market in India.

3. The Bilateral Netting of Qualified Financial Contracts Bill, 2020, inter alia, seeks to provide for—

- (a) designation of any bilateral agreement or contract or transaction, or type of contract, as qualified financial contract by the Central Government or any of the regulatory authorities as specified in the First Schedule;
- (b) enforceability of netting of a qualified financial contract;
- (c) invocation of close-out netting which may be commenced by a notice given by one party to the other party of a qualified financial contract upon the occurrence of an event of default with respect to the other party or a termination event that may, in certain circumstances, occur automatically as specified in the netting agreement;
- (d) determination of the net amount payable under the close-out netting in accordance with the terms of the netting agreement entered into by the parties and in the absence of the netting agreement, where the parties to a qualified financial contract fail to agree on the

- sum with regard to the net amount payable under the close-out netting, determination of such sum through arbitration;
- (e) imposing of certain limitations on powers of administration practitioner.
4. The Bill seeks to achieve the above objectives.

CHAPTER III INVOCATION OF CLOSE-OUT NETTING

6. Invocation of close-out netting.—(1) Close-out netting may be commenced by a notice given by one party to the other party of a qualified financial contract upon the occurrence of an event of default with respect to the other party or a termination event that may, in certain circumstances, occur automatically as specified in the netting agreement:

Provided that where any one of the parties to a netting agreement is subject to administration, then no prior notice to or consent of the party in insolvency, winding up, liquidation, administration or resolution proceeding, or to the administration practitioner of such proceeding, shall be required.

Explanation.—For the purposes of this sub-section,—

- (i) “event of default” means failure to pay or deliver or honour the obligations of a qualified financial contract, or bankruptcy, or any other event as may be agreed upon by the parties in the agreement; and
- (ii) “termination event” means the occurrence of any event mentioned in the netting agreement which gives one or both parties the right to terminate relevant transactions under that agreement.

(2) The parties to a qualified financial contract shall ensure that all obligations owed by one party to another party under a qualified financial contract are reduced to or replaced with single net amount which has the following effect, namely:—

- (a) the termination, liquidation or acceleration of any present or future payment or delivery rights or obligations arising under or in connection with any one or more qualified financial contracts to which a netting agreement applies;
- (b) the calculation or estimation of a close-out value, market value, liquidation value or replacement value in respect of each right and obligation or group of rights and obligations terminated, liquidated or accelerated under clause (a) and the conversion of each such value into a single currency; and

(3) Without prejudice to the provisions of any law for the time being in force requiring the realisation, appropriation or liquidation of collateral, and unless otherwise agreed by the parties, the realisation, appropriation or liquidation of collateral under a collateral arrangement shall take effect without any requirement of prior notice to, or consent from, any party, person or entity.

(4) Close-out netting shall be applicable to all qualified financial market participants who are parties to a qualified financial contract notwithstanding anything to the contrary contained in any law specified in the Second Schedule or any other law pursuant to which any qualified financial market participant has been incorporated, constituted or is regulated.

7. Net amount.—(1) Where parties to the qualified financial contract enter into a netting agreement, the net amount payable under the close-out netting shall be determined in accordance with the terms of the netting agreement entered into by the parties.

(2) In the absence of the netting agreement, where the parties to a qualified financial contract fail to agree on the sum with regard to the net amount payable under the close-out netting, such sum shall be determined through arbitration.

CHAPTER IV
